Climate Change and Human Health Literature Portal

Connecting the global climate change and public health agendas

Author(s): Nilsson M, Evengard B, Sauerborn R, Byass P

Year: 2012

Journal: PLoS Medicine. 9 (6): e1001227

Abstract:

Peter Byass and colleagues urge public health professionals to strengthen their response and develop actions to bring health and climate co-benefits.

Resource Description

Communication: M

resource focus on research or methods on how to communicate or frame issues on climate change; surveys of attitudes, knowledge, beliefs about climate change

A focus of content

Communication Audience: M

audience to whom the resource is directed

Public

Exposure: M

weather or climate related pathway by which climate change affects health

Unspecified Exposure

Geographic Feature: M

resource focuses on specific type of geography

General Geographical Feature

Geographic Location: M

resource focuses on specific location

Global or Unspecified

Health Co-Benefit/Co-Harm (Adaption/Mitigation): □

specification of beneficial or harmful impacts to health resulting from efforts to reduce or cope with greenhouse gases

Climate Change and Human Health Literature Portal

A focus of content

Health Impact: M

specification of health effect or disease related to climate change exposure

General Health Impact

Medical Community Engagement: ■

resource focus on how the medical community discusses or acts to address health impacts of climate change

A focus of content

Mitigation/Adaptation: ™

mitigation or adaptation strategy is a focus of resource

Mitigation

Resource Type: **☑**

format or standard characteristic of resource

Policy/Opinion

Timescale: **☑**

time period studied

Time Scale Unspecified
